

HYDRAULICS

dowaldwerke

HYDRAULIC CYLINDERS AND ASSEMBLIES

For several decades we manufacture hydraulic cylinders at our Dippoldiswalde plant. Originally a contract manufacturer we are a development partner of our customers today.

PROJECT MANAGEMENT

We apply a professional project management system to plan and control our development projects.

DESIGN ENGINEERING

A significant part of our resources is dedicated to design and development. Development, testing and manufacturing of hydraulic assemblies is based on customer specifications and our longtime experience.

TESTING

An important part of our equipment are facilities for functional and endurance testing. Our tests are performed in close coordination with our customers.

PRODUCTION

A high vertical manufacturing integration is part of our strategy. This allows us to realize customer-specific requirements efficiently and to react rapidly on customer requests.

APPLICATIONS

AGRICULTURAL MACHINERY

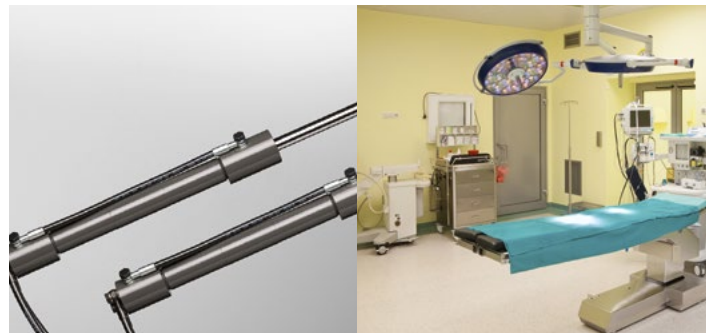

CONSTRUCTION VEHICLES

RAILWAY TECHNOLOGY

MEDICAL EQUIPMENT

SECTORS

RAILWAY

AGRICULTURE

CONSTRUCTION

HEALTH CARE SUPPLIES

A POWERFUL GROUP OF COMPANIES

Dowaldwerke GmbH is a company of Richard Grießbach Holding, a medium-sized group with about 350 employees.

Since 1993 we manufacture hydraulic cylinders and components at our Dippoldiswalde plant. Our customer base includes big manufacturers of agriculture equipment, system providers and railway suppliers.
